PROFESSIONAL SUMMARY

MCA student with a strong technical foundation in Java, Python, and SQL. Experienced in backend engineering and data analytics, with a proven track record of deploying applications on AWS EC2 and optimizing server-side logic. Skilled in debugging complex workflows and building scalable, data-driven systems. Certified in Azure AI Fundamentals, bringing a modern, AI-integrated approach to traditional software development.

SKILLS

Programming Languages:	Java, Python, SQL, JavaScript.
AI/ML	Machine Learning, Computer Vision, NLP, EDA, Pandas, NumPy.
Tools	Frameworks: Power BI, Tableau, REST APIs, Git/GitHub.
Databases:	MySQL, SQLite
Cloud & DevOps:	AWS EC2, Linux Commands.
Core CS Skills:	Data Structures & Algorithms, OOP, Operating Systems.
Soft Skills:	Analytical Thinking, Collaboration, Communication, Time Management.

EDUCATION

Master of Computer Applications	Aug 2026
Reva University, Karnataka	CGPA: 8.87

Bachelor of Computer Science	2021–2024
Government First Grade College, Karnataka	CGPA: 8.88

INTERNSHIP EXPERIENCE

Elevate Labs — Data Analyst Intern	Jun 2025 – Jul 2025
---	---------------------

- Processed, validated, and cleaned datasets using Python to ensure high data accuracy.
- Debugged workflow issues, optimized scripts, and automated repetitive tasks.
- Prepared dashboards and analytical reports using Power BI.
- Collaborated with teams to gather requirements and deliver insights.
- Strengthened scripting, problem-solving, and backend data handling foundations.

PROJECTS

Drishti: AI-Powered Vision Assistant — Flutter, TensorFlow Lite

- Developed a real-time object detection application using TensorFlow Lite to assist visually impaired navigation.
- Integrated distance estimation algorithms and gesture-based controls to provide accurate auditory feedback.
- Designed a scalable architecture featuring customizable detection sensitivity and automated voice guidance.

YouTube Trending Analytics — Python & SQL

- Cleaned and analyzed large datasets using Pandas and SQL queries.
- Performed EDA to identify trends in engagement and viewership.
- Built dashboards using Tableau/Power BI for easy interpretation.

Mood-Based Music Player — Java

- Developed a Java Swing application with login and playlist features.
- Implemented MySQL backend for user data storage and retrieval.

Website Deployment on AWS EC2

- Deployed a Website on AWS EC2 Linux & Windows instances.
- Configured environments using GitHub, SSH, and Linux commands.
- Performed server setup, troubleshooting, and ensured reliable uptime.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft (2026)

- Demonstrated foundational knowledge of Artificial Intelligence concepts and Microsoft Azure AI services including machine learning, computer vision, NLP, and responsible AI.

Computer Networking (TCP/IP) — Coursera (2025)

- Covered TCP fundamentals, networking protocols, and practical troubleshooting concepts.

AI Python Programming — Hope Foundation NSDC (2024)

- Certified in AI and Python programming with 200 hours of hands-on training covering machine learning concepts and real-world AI applications.
