PROFESSIONAL SUMMARY

Aspiring Data Analyst with strong foundations in Python, SQL, and data visualization. Experienced in cleaning, analyzing, and interpreting large datasets to generate actionable insights. Skilled in building dashboards using Power BI and Tableau, performing exploratory data analysis (EDA), and identifying trends to support decision-making. Passionate about using data to solve real-world problems and improve business outcomes.

SKILLS

Data Analysis & Tools: Python (Pandas, NumPy), SQL, Excel, Power BI, Tableau.
Data Techniques: Data Cleaning, Data Visualization, EDA, Data Interpretation, Reporting.
Databases: MySQL, SQLite.
Programming: Python, SQL, Java.
Tools: Git, GitHub, Jupyter Notebook.
Soft Skills: Analytical Thinking, Problem Solving, Communication, Attention to Detail.

EDUCATION

Master of Computer Applications	Aug 2026
Reva University, Karnataka	CGPA: 8.87

Bachelor of Computer Science	2021–2024
Government First Grade College, Karnataka	CGPA: 8.88

INTERNSHIP EXPERIENCE

Elevate Labs — Data Analyst Intern	Jun 2025 – Jul 2025
---	---------------------

- Cleaned and processed datasets using Python and Excel to ensure data accuracy.
- Performed exploratory data analysis (EDA) to identify patterns and trends.
- Built interactive dashboards using Power BI for reporting and insights.
- Analyzed data and presented findings to support decision-making.
- Documented workflows and improved data processes.

PROJECTS

YouTube Trending Analytics — Python & SQL

- Cleaned and processed datasets using Python and Excel to ensure data accuracy.
- Performed exploratory data analysis (EDA) to identify patterns and trends.
- Built interactive dashboards using Power BI for reporting and insights.
- Analyzed data and presented findings to support decision-making. Documented workflows and improved data processes.

Drishti: AI-Powered Vision Assistant

- Developed a real-time application using AI and data processing techniques.
- Applied computer vision concepts to detect objects and provide insights.
- Focused on real-time data processing and user-focused analytics.

Website Deployment on AWS EC2

- Deployed applications on AWS EC2 for scalable data processing.

- Managed server setup and ensured smooth execution of data workflows.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft (2026)

- Demonstrated foundational knowledge of Artificial Intelligence concepts and Microsoft Azure AI services including machine learning, computer vision, NLP, and responsible AI.

Computer Networking (TCP/IP) — Coursera (2025)

- Covered TCP fundamentals, networking protocols, and practical troubleshooting concepts.

AI Python Programming — Hope Foundation & NSDC (2024)

- Certified in AI and Python programming with 200 hours of hands-on training covering machine learning concepts and real-world AI applications.
